

The Annual Conference on Global Economic Analysis

June 7-9, 2007

Center for Global Trade Analysis

Purdue University

West Lafayette, Indiana, USA

Tenth Anniversary Conference on Global Economic Analysis

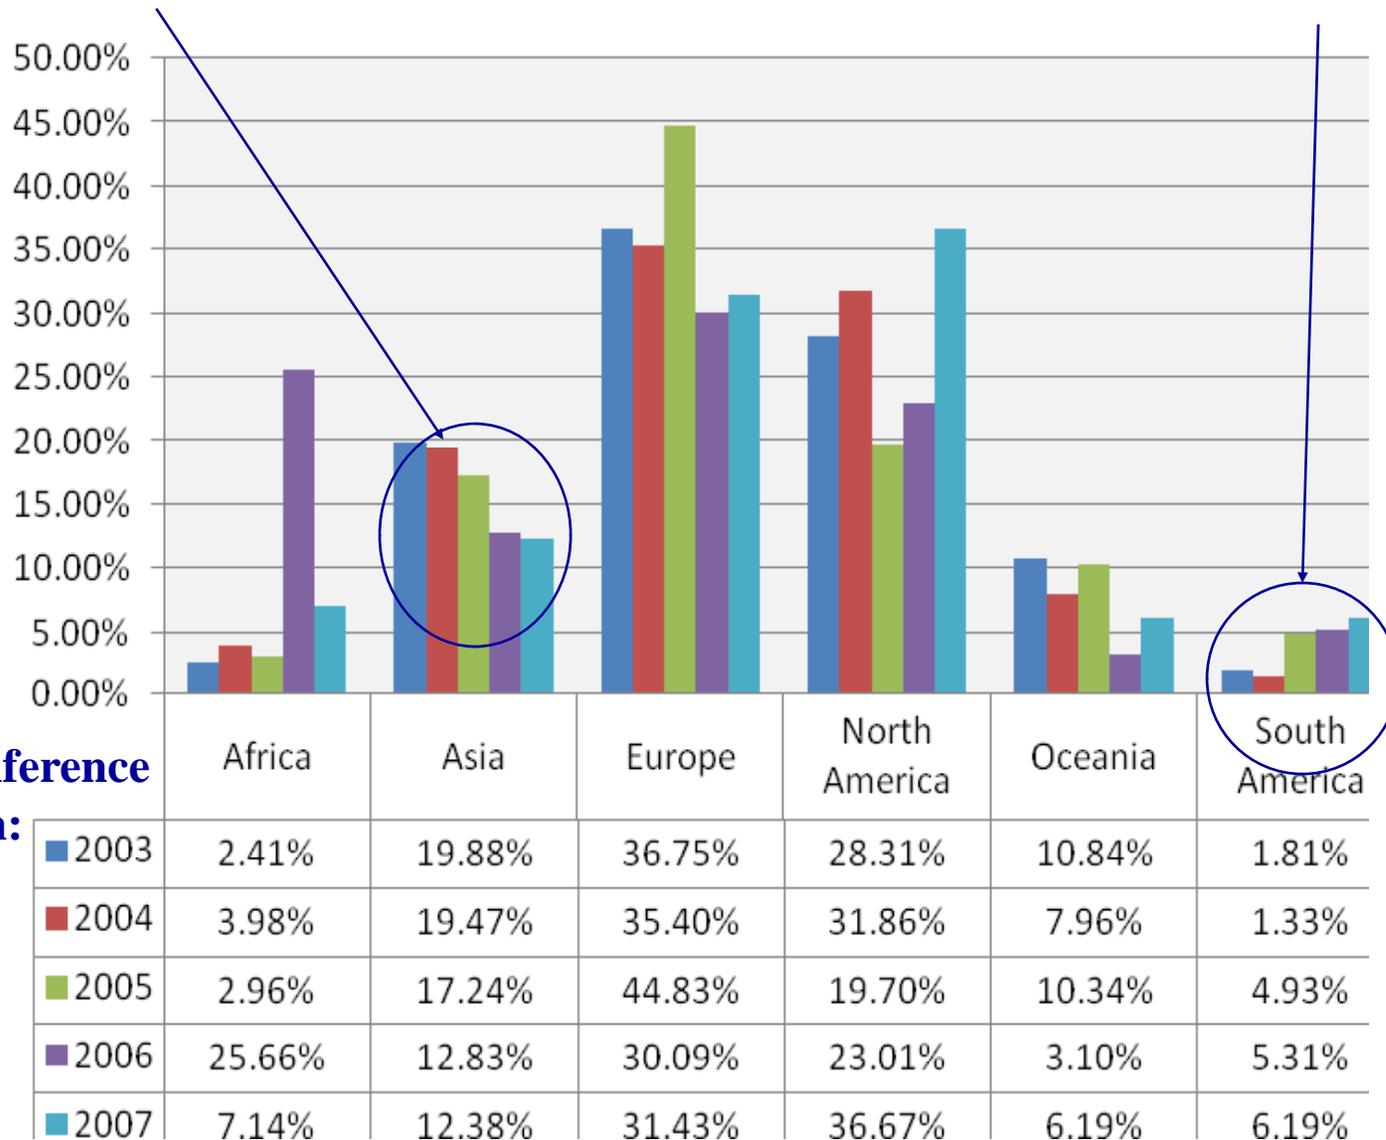

- **131 total presentations:**
 - 4 plenary papers and one panel
 - 48 organized presentations (14 sessions)
 - 83 selected paper presentations (28 sessions)
- **About 200 registered participants as follows:**
 - 1/3 N. America
 - 1/3 Europe
 - 1/3 LAm/Asia/Africa/Oceania
- **See program for details of conference**

Historical Perspective on Submissions and Participants

- **Total number of presentations:**
 - Steady over past 4 years
 - Share of organized sessions is larger this year due to active program committee
- **Total number of participants:**
 - Appears fairly steady: comparable to the previous two years (more in DC/2004 – about 250, less previously)
 - Composition is heavily influenced by location of conference: This should be borne in mind in deciding on future locations.

**Asian share is falling over time:
possible conference in 2010?**

**Time for a conference
in South America!**

**Profile of conference
participation:
2003- 2007**

Future Conferences

- **2008: Helsinki (Final)**
- **2009: Santiago, Chile (Final)**
- **2010: Asia? (Proposals to be submitted by December 2007)**
 - **Japan: NIES has expressed an interest in hosting, but needs strong support from local GTAP community**
 - **IDE has expressed an interest in hosting a conference in Southeast Asia – possibly Bangkok**
 - **Others in Bangkok with an interest: UN-ESCAP, local ADB office, and various Thai organizations**
- **2011: Venice: FEEM has expressed an interest for the past few years. Conference would need to be in July, after university term is complete.**
