

Centre d'études prospectives et d'informations internationales (CEPII, Paris)

Summary of GTAP-related activities

2008 - May 2009

The CEPII has made available version 2 of MacMap database, based on 2004 tariffs, for GTAP7. Updated documentation for this database is available at <http://www.cepii.fr/anglaisgraph/bdd/macmap.htm>. MAcMap Version 3, with tariffs for 2007, will be made available soon, and discussed at the board meeting.

The CEPII has developed a FDI database in the Eurostat sectoral classification (a mapping to GTAP classification is available). A pre-release version is available for comments and was sent to GTAP last year (2008). An updated version will be released by the end of the year.

Among noteworthy activities is also the fact that the CEPII is animating a Group of Scientific Interest (GIS) focused on Trade policy, created in 2002, jointly with INRA (French institute for agronomic research) and the French Ministry of Finance (Treasury and Economic Policy Directorate). This Group facilitates exchanges and co-operation between its members, and organises seminars on trade policies.

Below is a list of CEPII's GTAP-related publications.

Articles

Bouët, A., Y. Decreux, S. Jean, D. Laborde and L. Fontagné, “Assessing Applied Protection Across The World”, *Review of International Economics*, Vol. 16(5), pp. 850–863, 2008.
