1. Global EPAs Research Consortium

The Global Economic Partnership Agreements (EPAs) Research Consortium has facilitated trade policy decision making by assembling high quality information and quantitative studies on the potential impacts of EPAs. The secretariat of the Consortium has been located in the GRIPS ALLIANCE. The consortium has focused on improving the estimation of changes in economic welfare, production, trade, investment and job creation at both the macro and sector levels. Several specific issues are of special interest.

- Estimating tariff concessions.
- Estimating non-tariff measures
- Improving computable general equilibrium (CGE) models.
